

## 2023–24 Performance and Growth of North Carolina Public Schools

### Annual Testing Report (September 4, 2024)

#### Statistical Summary of Results

This report provides performance and growth data for the 2023–24 school year based on analysis of all end-of-grade (EOG) and end-of-course (EOC) tests, which are aligned to the North Carolina Standard Course of Study in reading and mathematics and the Essential Standards in Science, for all public schools in North Carolina.

The following data are included in this report:

- [Section 1.](#) Test Data: The percentage of students that scored Level 3 and above (Grade Level Proficient) or Level 4 and above (Career and College Readiness) on the EOG and EOC assessments.
- [Section 2.](#) Percent Proficient Disaggregated by Subgroup
- [Section 3.](#) Test Performance Disaggregated by Academic Achievement Level
- [Section 4.](#) Growth Results: Based on student performance on the EOG and EOC assessments, the percentage of schools that exceeded, met, or did not meet growth expectations for the school and for each applicable subgroup within a school as defined and calculated in EVAAS.
- [Section 5.](#) School Performance Grades: An A–F designation for each school, for each student subgroup within a school and for reading and mathematics in schools with grades 3–8. Analyses include School Performance Grades by school type, by growth, and by economically disadvantaged student populations.
- [Section 6.](#) Measure of Interim Progress Toward Long-Term Goals
- [Section 7.](#) Participation Requirements
- [Section 8.](#) Alternative Schools and Special Population Schools
- [Section 9.](#) Federal Designations: Number of schools with federal designations of Comprehensive Support and Improvement (CSI) and Targeted Support and Improvement (TSI).
- [Section 10.](#) State Low-Performing Schools and Districts
- [Section 11.](#) ACT
- [Section 12.](#) WorkKeys
- [Section 13.](#) Percentage of English Learners Meeting Progress and Exiting Status
- [Section 14.](#) Graduation Project: A list of schools that completed high school Graduation Projects.

The appendix includes test performance data and School Performance Grades by State Board of Education (SBE) regions and by virtual charter schools. Included in the appendix are the outcomes for the SBE strategic goals.

Accountability performance results for districts and all schools included in this report are available on the North Carolina Department of Public Instruction’s Office of Accountability and

Testing website at <https://www.dpi.nc.gov/districts-schools/testing-and-school-accountability>.  
The testing results are available in a database at <https://ncdpi.tiny.us/TestingStateLevel>. The data will also be presented in the North Carolina School Report Cards later this fall.

## Section 1. Test Data

All tests are reported on four levels (general assessments) or three levels (alternate assessments). The previous years provided are the 2021–22 and the 2022–23 school years.

Figures 1–8 show the percentage of students at Level 3 and above and the percentage of students at Level 4 and above for grades 3–8 in reading, mathematics, and science, and in high school for biology, English II, NC Math 1, and NC Math 3. Students at Level 3 demonstrate preparedness to be successful at the next grade level with some support. Students at Level 4 and above are on track to be prepared for career and college at the end of high school if continued learning occurs.

Compared to the 2022–23 school year, all content areas and all grade levels show either the same or an increase in the percentage of students meeting Level 3 and above and Level 4 and above except for (1) Grades 4 and 7 reading students scoring Level 3 and above and Level 4 and above, (2) grade 8 science students scoring Level 3 and above, (3) biology students scoring Level 3 and above and Level 4 and above, and (4) NC Math 3 students scoring Level 3 and above and Level 4 and above.

### Mathematics: Grade 8, NC Math 1, and NC Math 3

Students who took NC Math 1 during or prior to grade 8 do not take the Grade 8 Mathematics EOG. In reviewing Figures 7 and 8, note:

1. *Grade 8 Math EOG* includes grade 8 students who took the grade 8 math EOG this school year.
2. *Grade 8 NC Math 1* includes grade 8 students who took the NC Math 1 EOC in grade 8 or prior.
3. *All NC Math 1* includes all students who took NC Math 1, regardless of whether it was in middle school or high school.
4. *Grades 9–12 NC Math 1* includes the students who took NC Math 1 in grades 9–12 this school year.
5. *All NC Math 3* includes the students who took NC Math 3 in grades 9–12 this school year.

## Section 2. Percent Proficient Disaggregated by Subgroup

Tables 1–12 show the test results disaggregated by subgroup with tables 1–6 reporting performance for grade level proficiency and tables 7–12 reporting performance for career and college readiness.

# Section 4. Growth Results

For the 2023–24 school year, school accountability growth results are presented for the 2,558 public schools that participated in the statewide testing program. Using all EOG, English II EOC, NC Math 1 EOC and NC Math 3 EOC (for students who took NC Math 1 in grade 8 or prior) test scores, school accountability growth is calculated using EVAAS, a value-added growth model. Each school with the required data is designated as having exceeded expected growth, met expected growth, or did not meet growth. As shown in Table 13, for the 2023–24 school year, 72.5% of all schools met or exceeded growth expectations.

TABLE 13. School accountability growth

Growth category	2021–22 Number	2021–22 Percent	2022–23 Number	2022–23 Percent	2023–24 Number	2023–24 Percent
Exceeded expected growth	736	28.8	725	28.3	733	28.7
Met expected growth	1,043	40.8	1,126	44.0	1,122	43.9

<b>Total</b>	<b>2,557</b>		<b>2,561</b>		<b>2,558</b>	

Table 14 and Figure 13 provide the percentage of schools at each growth designation by school type. School type is defined as follows: elementary (any school with a grade configuration up to grade 5), middle (any school with a grade configuration up to grade 8), and high (any school with a grade configuration up to grade 12 or ungraded).

TABLE 14. Growth status of schools by school type

<b>Total</b>	<b>1,213</b>		<b>688</b>		<b>656</b>	

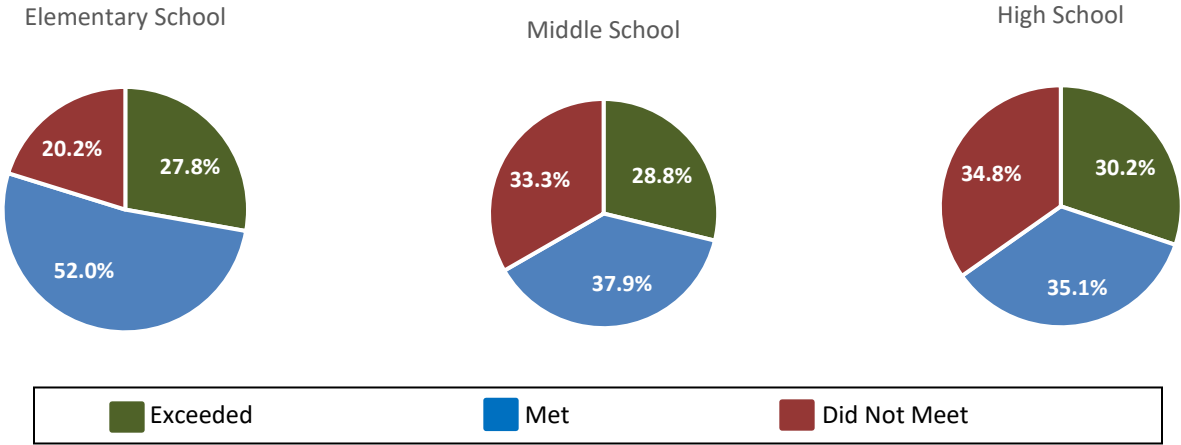

FIGURE 13. Growth status by school type.

As with school-wide accountability growth, subgroup growth is calculated using EVAAS, a value-added growth modeling tool. Within a school, each subgroup that meets data requirements is designated as having exceeded expected growth, met expected growth, or did not meet growth.

For example, as presented in Table 15, there are 49 school-level American Indian subgroups that met the data requirement of having at least 30 students in the subgroup. Schools' subgroups that did not meet the minimum data requirement of 30 students are not included.

## Section 5. School Performance Grades (A–F)

As required by G.S. §115C-83.15, School Performance Grades (A–F) have been reported for all schools since the 2013–14 school year.

The School Performance Grades are based on student achievement (80%) and growth (20%). The indicators and the proficiency standards or benchmarks used for achievement include:

1. Annual end-of-grade mathematics and reading assessments in grades three through eight and science assessments in grades five and eight (Level 3 and above).
2. Annual end-of-course assessments in NC Math 1 or NC Math 3 (for students who took NC Math 1 in grade eight or prior) and English II (Level 3 and above), included in achievement and growth.
3. Percentage of students identified as English learners who meet the progress standard on the English Proficiency assessment.
4. Percentage of students who graduate within four years of entering ninth grade high school (Standard [Four-Year] Cohort Graduation Rate).

As required by ESSA, the following are School Quality or Student Success indicators:

1. Growth for elementary and middle schools (mathematics, reading and science); high school growth is included in the achievement indicator (reading and mathematics).
2. Annual end-of-course assessment in biology for high schools (schools with grade nine or higher).
3. Percentage of twelfth grade students who complete NC Math 3 with a passing grade.
4. Percentage of twelfth grade students who achieve the minimum score required for admission into a constituent institution of The University of North Carolina on the ACT (composite score of 19) or who meet the Silver Certificate or higher on the WorkKeys assessment.

The EVAAS model, which provides the growth measure, uses current and previous student test scores to determine whether schools are maintaining or increasing student achievement from one year to the next. If a school does not have a Growth Score, only the School Achievement Score is used to calculate the Performance Score.

For an indicator to be included in the School Performance Grade calculation, there must be thirty students. If a school has only one indicator, the School Performance Grade is calculated on that indicator.

The grade designations are set on a fifteen-point scale as follows:

<b>A</b> = 85–100	<b>B</b> = 70–84	<b>C</b> = 55–69	<b>D</b> = 40–54	<b>F</b> = 39 or less
-------------------	------------------	------------------	------------------	-----------------------

## Overall School Performance Grades

Of all district schools and charter schools, 2,597 received School Performance Grades (SPG) for the 2023–24 school year. Of the schools not included in the SPG report, 95 are schools approved to use the Alternative School Accountability Model, which is highlighted in Section 8.

Table 16 and Figure 15 show overall letter grades.

## School Performance Grade by School Type

Table 17 and Figure 16 show the distribution of school grades by school type. School type is defined as follows: elementary (any school with a grade configuration up to grade 5), middle (any school with a grade configuration up to grade 8), and high (any school with a grade configuration up to grade 12 or ungraded). In 2023–24, 60.9% of the elementary and middle schools earned a grade of C or better, compared to 83.3% of high schools. This difference may be attributable to the indicators for each model. The high school model has more measures (Cohort Graduation Rate, ACT/WorkKeys, Math Course Rigor) than elementary and middle schools.

## School Performance Grade by Subgroups

The indicators and the methodology to calculate A–F letter grades for student subgroups are the same as those used for the calculation of School Performance Grades. If an indicator does not meet the requirement of at least thirty students, it is not included in the calculation. However, if there is only one indicator that meets this requirement, the subgroup letter grade is based on the one indicator. For each subgroup, the subgroup growth index comprises 20% of the letter.

## School Performance Grades by Growth

Comprising 20% of the overall SPG, the amount of growth a school’s students demonstrate for the year indicates the school’s success in moving student achievement forward, a key criterion for sustained improvement.

Table 19 and Figure 18 show that of the 2,532 schools with both an SPG and a school accountability growth status, 1,851 (73.1%) met or exceeded growth; of those schools, 173 (9.3%) earned an A, 463 (25.0%) earned a B, and 731 (39.5%) earned a C.

## School Performance Grades and School Accountability Growth by Percentage of Students Identified as Economically Disadvantaged

Tables 20 and 21 present SPGs and school accountability growth by the percentage of Economically Disadvantaged Students (EDS) for schools. The percentage of EDS is divided into five strata: 0–20%, 21–40%, 41–60%, 61–80%, and 81–100%. Each table shows whether the percent of schools is within +/- 3 percentage points of the state-level data or above/below this range.

## Reading and Mathematics School Performance Grades for Elementary and Middle Schools

Schools with grades 3–8 report separate letter grades for reading and mathematics based on EOG test scores. Like the overall SPGs, the reading and mathematics grades include achievement (80%) and growth (20%). Table 22 and Figure 19 provide this information by the number and percent of grades earned for all schools.

TABLE 22. Number and percent of schools' reading and mathematics letter grades

## Section 6. Measure of Interim Progress Toward Long-Term Goals

In the ESSA State Plan, North Carolina set twelve-year goals for improvement in Academic Achievement, Graduation Rate, and English Language Proficiency.

These goals reflect the percentage of students achieving Career and College Readiness (Academic Achievement Levels 4 and 5) on the EOG and EOC annual assessments of reading and mathematics for all students and each subgroup of students (American Indian, Asian, Black, Hispanic, Two or More Races, White, English Learners, Students with Disabilities, and Economically Disadvantaged).

Attainable yet ambitious goals were set requiring all students and each subgroup of students to meet interim measures of progress that, if achieved, would result in the state meeting its twelve-year goals and a reduction of the achievement gap between high performing and low performing subgroups.

## Section 7. Participation Requirements

As required by the ESSA, schools must meet assessment participation requirements. Participation requirements apply to all state assessments administered by the state including EOG and EOC assessments in reading, mathematics, and science; the ACT, and ACT WorkKeys.

To meet participation requirements, schools must assess at least 95% of eligible students. Participation requirements are reported for the following student groups: All Students, American Indian, Asian, Black, Hispanic, Two or More Races, White, Economically Disadvantaged, English Learners, and Students with Disabilities. Participation consequences are applied to schools that did not meet their participation target.

Table 35 shows the number and percentage of schools that did or did not meet all the participation requirements. Table 36 shows, for each subgroup, the number of schools who met participation requirements for that subgroup.

TABLE 35. Participation requirements

## Section 8. Alternative Schools and Special Population Schools

In consideration of the limited data available for some schools, the State Board of Education policy provides an Alternative Schools’ Modified Accountability System for reporting overall achievement and growth performance. This system is available to qualifying alternative schools, North Carolina Department of Public Instruction-approved special education schools, and schools identified as Developmental Day Centers. Beginning with the 2017–18 school year, and as required by ESSA, these schools also have a School Performance Grade for federal reporting. Table 37 provides information on the options selected by these schools for the 2023–24 school year.

TABLE 37. Alternative Accountability Model options

SBE policy selection	Number of schools	Description of option and outcomes
Option A	1	Participate in School Performance Grades
Option B	77	Alternative Schools’ Progress Model
Option C	17	Schools submitted individual reports to the NCDPI
<b>Total</b>	<b>95</b>	

Schools that select Option B under the alternative system are evaluated based on their performance in the current year compared to the previous year. Schools are considered “Maintaining” if results stay within +/-2.9 points of the previous year. If more or less than three points are earned, the schools are “Progressing” or “Declining” respectively. Table 38 shows the results for the schools selecting Option B.

TABLE 38. Alternative Schools’ Modified Accountability System Option B results

Option B results	Number of schools	Percent of schools
Progressing	17	22.1
Maintaining	48	62.3
Declining	12	15.6
<b>Total</b>	<b>77</b>	

Under Option C, alternative schools develop an alternative accountability model and present their proposal to the State Board of Education for approval. Approved schools provide a summary report of their accountability models, which are posted on the NCDPI website.

The results of the schools that chose Option B or Option C are located at the North Carolina Department of Public Instruction’s Accountability Services website.

## Section 9. Federal Designations

The Every Student Succeeds Act requires the identification of schools based on a state’s accountability model. The designations required include Comprehensive Support and Improvement (CSI) schools and Targeted Support and Improvement (TSI) schools. Identification and exit criteria were adjusted back to the requirements originally established in the ESSA State Plan.

On May 6, 2024, the U.S. Department of Education approved an amendment to the ESSA state plan. The amendment modified the identification year of the following federal designations to the start of the 2025–26 school year (previously scheduled for the start of the 2024–25 school year).

- Comprehensive Support and Improvement – Low Performing
- Comprehensive Support and Improvement – Low Graduation Rate
- Comprehensive Support and Improvement – Additional Targeted Support not Exiting Such Status
- Targeted Support and Improvement – Additional Targeted Support

This modification aligns the identification and exit years. The Targeted Support and Improvement – Consistently Underperforming designation is an annual identification, and thus occurs in fall 2024 for the 2024–25 school year.

### Comprehensive Support and Improvement Schools

For the 2024–25 school year, previously identified CSI schools maintain designations and are provided continued support. These schools may exit in the 2025–26 school year based on data from the 2024–25 school year.

### Targeted Support and Improvement Schools

TSI- Consistently Underperforming subgroups had an opportunity to exit at the end of the 2023–24 school year, and new identifications were made. TSI- Additional Targeted Support subgroups, had an opportunity to exit at the end of the 2023–24 school year, but no new identifications were made.

- *2023–24 Targeted Support and Improvement – Consistently Underperforming Subgroups (TSI-CU) Identification Criteria.* One or more of the same subgroup(s) with a designation of “F” on the NC statewide system of annual meaningful differentiation (School Performance Grades) for the most recent and previous two years. (For the fall 2024–25 identification 2021–22, 2022–23, and 2023–24 data were used.)
- *2023–24 Targeted Support and Improvement – Consistently Underperforming Subgroups (TSI-CU) Exit Criteria.* Achieve a letter grade of “D” or higher on the NC statewide system of annual meaningful differentiation (School Performance Grades) for previously identified subgroups in the most recent and previous year. (For the 2024–25 fall exit, 2022–23, and 2023–24 data were used.)
- *2023–24 Targeted Support and Improvement – Additional Targeted Support (TSI-AT) Exit Criteria.* (1) Identified subgroup(s) achieve a three-year growth index of 1.0 or higher (The three-year growth index calculation will require three years of growth indices, be an average of the index scores, use the most recent three years of available data, and require a minimum-n of thirty for each of the three years used.); or (2) Are on track to meet the subgroup(s) twelve-year proficiency goals in reading and mathematics; or (3) There is no longer a subgroup whose overall performance as measured by the School Performance Grade score is at or below the score designated for CSI-Low Performing identification and previously identified subgroup(s) improved performance on the School Performance Grade score as compared to the score at the time of identification.

A summary of the number of schools with the above designations is listed in table 39. Schools identified as CSI-Low Graduation Rate may also be identified as CSI – Low Performing or Targeted Support and

Improvement. For the 2022–23 CSI fall identifications, if schools were unable to exit, they are included in the total number of schools below. These schools are provided additional support to implement more rigorous interventions. The full lists of school identifications are available on the North Carolina Department of Public Instruction’s Office of Accountability and Testing website at <https://www.dpi.nc.gov/districts-schools/accountability-and-testing/school-accountability-and-reporting/accountability-data-sets-and-reports>.

TABLE 39. Summary of federal designations

<b>Designation</b>	<b>Number of schools<sup>1</sup></b>
CSI – Low Performing	77
CSI – Low Graduation Rate	36
TSI – Consistently Underperforming Subgroups	1,267 (57 exited)
TSI – Additional Targeted Support	576 (227 exited)

<sup>1</sup> Closed schools are removed from the designation lists and are not included in the count of schools that have exited.

## Section 10. State Low-Performing Schools and Districts

The North Carolina General Assembly has enacted requirements to identify low-performing schools, low-performing districts, and recurring low-performing schools based on Legislative requirements. The identification of these schools and districts requires locally developed plans for improvement.

North Carolina identifies low-performing public school units annually. There are four designations for low-performing public school units:

- Low-Performing School
- Low-Performing District
- Continually Low-Performing School
- Continually Low-Performing Charter Schools

*Low-Performing Schools.* A low-performing school has a School Performance Grade of 'D' or 'F', and a growth status of 'Met' or 'Not Met.'

*Low-Performing District.* Low-performing districts are defined as districts that have greater than 50% of schools identified as low-performing.

*Continually Low-Performing School.* A continually low-performing school is identified as low-performing in any two of the last three years. A low-performing school has a School Performance Grade of 'D' or 'F' and a growth status of 'Met' or 'Not Met'. For the purposes of this list, charter, regional, and residential schools are not identified as continually low-performing schools.

*Continually Low-Performing Charter Schools.* A continually low-performing charter school is identified as low-performing in any two of the last three years. A low-performing charter has a School Performance Grade of 'D' or 'F' and a growth status of 'Met' or 'Not Met'.

The overall number of low-performing schools and districts has increased. Table 40 displays the overall changes from 2021–22 to 2023–24.

TABLE 40. Number of Low-Performing Schools and Districts

## Section 11. ACT

ACT is reported as the percentage of 11th graders who have a composite score of at least 19, the UNC system admission minimum requirement. For the 2023–24 school year, the participation rate was >95% (112,995 students).

## Section 13. Percentage of English Learners Meeting Progress and Exiting Status

Identified English learners take the English proficiency test annually to monitor progress and to determine if students may exit such status. Students qualifying to exit identification as an English learner increased from 6.1% for the 2021–22 school year to 7.3% for the 2023–24 school year. This is an increase of 1.2 percentage points.

## Appendix D. State Board of Education Goals

The State Board of Education implemented a strategic plan with the vision that “Every public school student will graduate ready for post-secondary education and work, prepared to be globally engaged and productive citizens.” Table 67 provides information showing results based on the goals set for assessment and accountability measures. Unless specified, results include data for all schools.
