Wilson Preparatory *Remote* Academy

Why Does Wilson Prep Need a Remote Charter Academy?

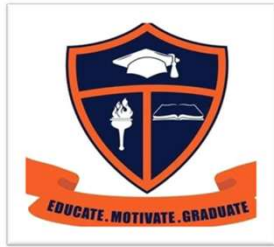

- A recent study revealed, “since 2000, the online education industry has grown in excess of 900%, and its users are projected to reach 958.4 million students by 2028”.
- At Wilson Preparatory Academy (WPA), a significant amount of parents and students inquire about remote learning as an option. Since 2022, parents have transferred their children to Schools offering Remote Learning.
- WPA personalization of the Remote Learning Program, will enhance the students learning process by increasing their understanding and application which results in the remote learning experience being more effective and welcomed by the students.
- Our world is digitalized and WPA is equipped with an enhanced technology infrastructure. Over the years, WPA recognized the effective utilization of technology will shape the future of education and immediately embraced providing digital accessibility and customization to the students while managing the overall costs of preparing our student for the digital world.

Wilson Preparatory *Remote* Academy

What is the Proposed Remote Charter Academy Structure?

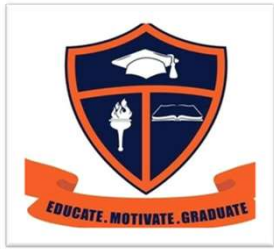

- Wilson Preparatory *Remote* Academy will provide full time remote learning to students utilizing Infinite Campus and Schoology for instructional content and assignments. Synchronous instruction will occur through live Zoom sessions, promoting interactive learning through lessons and discussions. Asynchronous learning will be provided via Zoom sessions with access to recorded lectures and assignments, offering flexibility while maintaining academic rigor.
- We will ensure seamless communications and effective content delivery.
- We will provide regular training sessions and ongoing support on the various platforms to ensure the effective utilization of the learning tools by the students, parents and faculty.
- Student progress will be assessed through formative and summative assessments, projects, and class participation. Instruction will be adjusted based on data to meet diverse learning needs. Benchmark assessments and continuous data analysis will guide targeted instructional strategies to support academic growth.

Remote Learning SUCCESSES

Wilson Preparatory *Remote* Academy

During March 2020, when public schools were ordered by the Governor to close due to Covid, immediately Wilson Preparatory Academy (WPA) transitioned “exclusively” to the online / virtual learning model. All Scholars already had Chromebooks and the existing framework for online / virtual learning was enhanced and implemented.

Over the years, with certified, synchronous teachers leading the way, Wilson Preparatory Academy students engaging with the blended learning curriculum remotely have proven to be a huge success. Parents, teachers, staff and students are excited as we plan to launch **Wilson Preparatory *Remote* Academy**
